Contact hours	52
Preparation for formative assessments (2-20)	10
Preparation for an examination (30-60)	40
Presentation preparation (report) (1-10)	10
Total:	112

assessment methods

Knowledge - knowledge achieved by taking this course are verified by the following means:

- Combined exam
- Seminar work
- Continuous assessment
- Test

Skills - skills achieved by taking this course are verified by the following means:

- Combined exam
- Individual presentation at a seminar

Group presentation at a seminar

Competences - competence achieved by taking this course are verified by the following means:

Skills demonstration during practicum

Combined exam

prerequisite

Knowledge - students are expected to possess the following knowledge before the course commences to finish it successfully:

fundamental orientation in psychological terminology of general, developmental and social psychology .

Skills - students are expected to possess the following skills before the course commences to finish it successfully:

- properly use and apply basic psychological terminology to specific situations
- create a presentation, or a paper that will be presented to the group

Competences - students are expected to possess the following competences before the course commences to finish it successfully:

N/A

N/A

N/A

teaching methods

Knowledge - the following training methods are used to achieve the required knowledge:

Discussion

Lecture

Self-study of literature

Individual study

One-to-One tutorial

Skills - the following training methods are used to achieve the required skills:

Seminar

Discussion

Cooperative instruction

Collaborative instruction

Competences - the following training methods are used to achieve the required competences:

Practicum

Students' portfolio

Task-based study method

learning outcomes

Knowledge - knowledge resulting from the course:

- describe individual methods of pedagogical psychology,
- compare the different types of learning and define their main features,
- explain the laws and conditions of learning,
- focus on the motivation of the elementary school pupil and to define the causes of the disability,
